Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The rejection of claims 1-10, 12-18 and 20-25 based on 112 1st. paragraph was discussed. The Applicant argued that the FLCs of the invention are well known in the art. However, because the invention claims the method for forming a FLC by cooling the liquid crystal panel to a specific temperature then heating to room temperature, instead of claiming the composition of the FLCs, the Examiner agrees to withdraw the rejection based on 112 1st. in the next office action.
